## Funding committee has extra money for organizations

by Karen Merk  
Staff Writer

anything, was announced at the board's Nov. 8 meeting.

The money is available to student organizations, who may apply for part or all of the money, said Student Government President Scott Wurster.

"We would like student organizations or forming clubs to know that the money is theirs and that it is there to

The University Center Board, which allocates student activity fee money to student organizations, has an extra \$5,500 that has not been earmarked for

## Some smoke-stopping tips from the Cancer Society

NKU students who would like to quit smoking will have their chance to go for 24 hours without a cigarette on Thursday, Nov. 17. The American Cancer Society has designated this day as the Great American Smokeout.

Each year, thousands of smokers participating in the Smokeout give one another encouragement, a shoulder to cry on, and just about anything else—except a cigarette.

The goal for this year's Smokeout is to get one out of five smokers to quit for 24 hours. If a smoker can get through 24 hours, he or she may often stretch it to 48 or 72 hours, or may even quit for good.

In 1982, more than 19 million American smokers attempted to give up cigarettes on Smokeout day. According to a survey conducted by the Gallup organization, 4.5 million succeeded for a full 24 hours. One to 11 days later, 2.3 million reported that they were still not smoking.

Kicking the habit, however, is not as easy as it may seem. Just ask any smoker and he or she will tell you that smoking is an addiction.

Nicotine, a psychoactive drug found in cigarette smoke, reaches the brain of a smoker within six seconds of being inhaled. According to the American Cancer Society, this is twice as fast as maintaining heroin.

Many smokers, especially women, fear they will gain weight if they stop smoking. Actually, only one-third of the smokers who quit gain weight, and one-third even lose weight as a result of com-

bing general fitness routine with their efforts to quit.

With a little help, kicking the cigarette habit does not need to be such an agonizing process. The American Cancer Society provides the following "quit tips":

- \*Exercise to relieve tension. Climb the stairs instead of using the elevators.

- \*Avoid sugar-filled foods and spicy items that can trigger your desire for cigarettes.

- \*Reward yourself with cigarette substitutes. Some examples are sugarless gum, carrot sticks, and unbuttered popcorn.

- \*Throw out all your cigarettes. Hide the ashtrays, matches, and lighters.

- \*Keep your mind occupied. Work on that long-overdue research paper.

- \*Spend time with non-smokers. Sit with your friends in non-smoking areas of restaurants, etc.

- \*Use your cigarette money for other interests. Play some video games.

- \*Pat yourself on the back. You deserve credit for trying to kick the cigarette habit.

These are just a few of the tips used to quit smoking. No matter which you choose, realize that you don't need a cigarette. Clear the air for yourself and others.

Joining the Great American Smokeout on Nov. 17 will take a great deal of patience and willpower. Smokers should try it for 24 hours. They have nothing to lose, and besides, if they end up quitting for good, they are gaining a healthy and more enjoyable life.

use," Wurster a UCB member said. "All the organizations have to do is submit their request for funds."

Also discussed at the meeting was last year's leftover money, \$20,300, which was allocated, but not used by the organizations. Wurster said all unused activity fee money goes back into the university's general fund at the end of

the fiscal year, where it does not necessarily benefit students directly.

"It would be great if we could carry it over," Wurster said. "That way we could invest it, and maybe dole out scholarships from the interest. But there's no way. It can't be carried over from fiscal year to fiscal year."

## Chem prof opens '83 science series

Dr. Anna J. Harrison, professor emeritus of Chemistry at Mount Holyoke College will be the first speaker this year for the annual Physical Sciences Lecture Series.

Harrison is president of the American Association for the Advancement of Science, and has served on the Board of Directors since 1979. She is past president of the American Chemical Society.

Harris holds honorary Doctor of Science Degrees from Eastern Michigan University, University of Missouri, Worcester Polytechnic Institute, Tulane University and Smith College.

She is the recipient of the ACS Award in Chemical Education (1982), James F. Norris Award for Outstanding Achievement in Teaching of Chemistry, Northeastern Section of the ACS and Manufacturing Chemists Association Award in College Teaching.

Her research interests are in the area of Molecular Spectroscopy and Photolysis.

Harrison will speak at Northern on Monday, Nov. 14 and Tuesday, Nov. 15. For more information call Dr. Vinay Kumar in the Department of Physical Sciences.

## Wurster urges support for student forum

by Mindy Cossens  
Staff Writer

At the November 7 meeting of Student Government Scott Wurster, SG president, urged at least 50 percent student government attendance at the student forum. It is scheduled for November 14 in the University Center Theatre from noon to 2 p.m.

Andra Ward, Secretary of External Affairs, announced that the KISL (Kentucky Intercollegiate State Legislature) delegation was accepted at their Elizabethtown conference in full, with all empowerments.

In a meeting with President Boothe, the Special Activities Committee plans to work toward moving future

Homecoming activities to an earlier date in the fall. Inclement weather and poor attendance have plagued this activity in the past, and Wurster announced the committee plans to iron out these and other problems.

Student Government also extended its commendation to the soccer team here at Northern for their successes this year.

## Presentation on child abuse

A panel presentation dealing with the prevention, detection and treatment of child abuse is scheduled for Nov. 17 at 7 p.m. room 108 of the University Center.

Panelists will specifically address issues related to the physical and sexual abuse of children. Participants include, Tom Cornwall, assistant director of social services, Cincinnati Children's

Hospital; Barb Hope, counselor of sexually abused children, Women's Crisis Center of Northern Kentucky and parent "coaches" from Parent's Anonymous of Northern Kentucky.

The Program is free and open to the public. It is the first of several educational forums planned by NKU's Student Social Work Organization.

## Fielder on freaks and violence

Leslie Fielder is a fiction writer, nationally acclaimed critic, social historian, and author of *Love and Death in the American Novel*, *Freaks*, and *Nude Croquet*. Co-sponsored by the NKU Department of Social Sciences, he is scheduled to speak Nov. 15 at 2 p.m. in room 110 of the Landrum Academic Center and 8 p.m. in room 200 of the

BEP building.

His first speech will be a classroom discussion of "Freaks" and his second topic will be "Violence and Anti-Violence in Literature and the Popular Arts."

This lecture is the last in the fall series sponsored by the NKU Literature and Language Department.

## Vote for your favorite 'turkey'

The Public Relations Student Society of America will sponsor a "Turkey of the Year" contest from Monday, Nov. 14 through Wednesday, Nov. 23. A 25-word or less "essay" must accompany nominations for this prestigious award. These "essays" will be read when given to the workers. Voting will be with a quarter, and will take place in the University Center lobby from 11 a.m. to 1 p.m. during that week. The final announcement of the winner will be at noon on Nov. 23.

The "Turkey of the Year" will receive a lavish turkey dinner for two. He or she will also receive a crown of jewels to be worn the whole day.

The contest was held by the Public Relations class last year, and is being done by the PRSSA this year to raise money for the club.

# Political Science students get upset over letter

To the editor:

In rebuttal to Michael W. Engeman's letter which appeared in the 7 November *Northerner*, we as political science students take exception to several of his flippant comments.

Granted, Dr. Hillgruber is an intelligent man and his style of lecturing is common to European Academia. However, he did not take time out of his

tour as a courtesy to NKU, he was paid an honorarium. As to the contention that rudeness was exemplified by the students walking out, it seems obvious that the learned Mr. Engeman has never attended a lecture at NKU before. Dr. Hillgruber was forewarned as to the time constraints placed upon his presentation and student class changes. Courtesy and rudeness therefore are moot issues.

Mr. Engeman is to be commended on his insights *vis a vis* fascism as an ideology and its totalitarian features but his elementary understanding of protocol is a shame. The chairperson of the political science department and the Associate Provost were quite succinct in their respective introductions, necessitated by protocol and, yes, simple courtesy. Our advice to Mr. Engeman is to attend more lectures so

he may learn greater tolerance of others opinions. We cordially invite Mr. Engeman to air his views at a forum provided by the Political Science Club at our meetings. The next one will be held at Landrum 211 on 1 December at 1:45 p.m. Be there!

Political Science Club

## Anstead on Wurster, Student Government

To the editor:

If the truth in packaging law applied to campus periodicals you ought to be compelled to post above *The Northerner* masthead your official designation as the *Official Newsletter of the Scott Wurster Fan Club*. You criticize the apathy of the student body in not attending the October 5th student forum with criticism that would have been unfair [sic] in an editorial (but more on this in due course).

What I want to state now is that opinions should be labeled editorials or analysis, and straight factual reporting only should be done as news stories. This is how a good newspaper does it. *The New York Times* will, as in a straight news story (such as Secretary Watt's resignation) report what happened and that alone; commentary on what occurred will be clearly labeled as analysis or editorial. But then *The Northerner* has always seen *The National Enquirer* as more of a role model than *The New York Times*.

The reason for the low turnout at the student forum was the poor scheduling

of the event. If the event of this magnitude had been scheduled in the UC Theater at noon instead of 5 p.m. in the Residence Halls it would have had three times as many students and a far better cross section of the student body.

Why was the scheduling so poor? It was because of Scott Wurster's cynical performance on this issue. George Wallace said of President Nixon that he was "A double dealer, a two timer, and a man who tells folks one thing and does another." This would be an accurate description of Mr. Wurster. Scott is attempting a political juggling act of pleasing the students about holding a forum, for which he may deserve little credit. The fellow who was SG President during the 1981-82 school year (a man so two-faced his very name rhymed with money) never even held a forum. Scott had one, but he scheduled it so that it would draw a minimum attendance so as to let the Administration, the Board of Regents, and the Council on Higher Education know that he would make sure that if there was to be a protest, it would be as small as possible. Scott saying in his campaign last year that he

worked well with the Administration was sort of like Charlie McCarthy saying that working with Edgar Bergen has always been his strong suit. Wurster is like the portrait Seymour Hersh painted of Henry Kissinger: a man who in the White House was the hawk of hawks, and in Georgetown cocktail parties was the great dove who restrained the hawks in the White House.

One should also note that the horrendous [sic] record on pocket book issues Scott has in SG is one of irresponsible fiscal conduct. This guy could give David Stockman lessons in deficits. According to minutes of a meeting SG summer meeting, they allocated \$150 for the purchase of a pocket calculator. Mr. Wurster and his entire incompetent New Wave team should no doubt have a great future at the Pentagon buying 36 cent parts for \$284. Also, despite whatever their faults, past SG presidents could at least have a successful Music Fest, unlike Scott.

I always thought we could never get a worse SG president than we had in 1981-82, but Scott is proving me wrong.

Robert J. Anstead

## Wright should get his foot out of mouth

To the editor:

I am writing in reply to a statement made by a student in *The Northerner* a few weeks ago. In his letter to Bill Lamb concerning WRFN's format, Wes Wright commented on the fact that the music the station had been playing was the type of hard rock "meant for heroin addicts."

I was so confused! I didn't know whether to get rid of my Iron Maiden albums or to start shooting heroin. I have always listened to hard rock, and yet, I don't even smoke grass. After Mr. Wright pulls his foot out of his mouth, he should reconsider his statement before asserting anymore of his blunt philosophy.

If Student Government should establish a Secretary of the Interior, I sure Wes Wright has the perfect qualities to fill this office.

Rob Gabbard

## Let us know what's here

To the editor:

I am a freshman here at NKU and I would like to know how to become involved in extracurricular activities. I don't know who or where to go to for information. When I asked a teacher in the University Center where to go he directed me over to Regents Hall. I went in and asked the person in charge what to do. He told me to look on bulletin boards in the University Center for the extracurricular notices.

From Regents Hall I made a second trip back to the Center searching for these poster pin ups. I must have looked at 30 bulletin boards and found only notices for jobs available and cars and pets for sale, but no information on extracurricular events at all.

If NKU wants freshmen to get involved in school activities, the way of making the information available to us must be improved!

Kelly McLaughlin

## Boothe liked Muse Fest

To the University Community:

One of the things with which I have been most pleased since my arrival is the quality of the productions in the Fine Arts Department. On the nights of October 27-30, that department presented the first annual Muse Festival.

Programs that my wife and I were able to attend were of very good quality

and provided an excellent evening of entertainment. I strongly encourage members of the university community to take advantage of these opportunities and at the same time, be supportive of the students, faculty, and the overall programs within the department.

Leon E. Boothe  
President

# Students slighted in upcoming inauguration activities

A rare occurrence is being afforded to Northern Kentucky University allowing for the presentation of Dr. Leon Boothe. Three days of pomp and splendor have been set aside for the gala "Cinderella" celebration.

It is quite understandable to be proud, no fault there, but who is Northern seriously trying to sell the president to? For all the planning which has gone into this three-day event, the major thrust of the ac-

tivities has been to the community. What particular activity has been planned for the presentation of the president to the student population? Shouldn't this be the first priority in the packaging and promotion of Dr. Boothe? How removed is Dr. Boothe becoming to the students?

Is it any surprise that there is so little support from the student population concerning this major undertaking of the administration

to promote the president?

It would have made more sense to have taken the allotted university funds for the celebration and had Dr. Boothe present to the students equipment that would function properly or reallocated the funds to some of the various departments for recruitment of better qualified/experienced instructors. Sell him to the student body as a president who is concerned with the needs of

students striving to get the best education their dollar can buy.

If funds or contributions from the private sector are funding the great bulk of expenses for the three-day event, then give the community a display that will rival anything in past history. But give the students a presentation of a president to go one-on-one with.

Vicki Bogucki

## Handicapped access outstanding

To the editor:

As a visually impaired freshman attending Northern, I want to compliment the entire university and the student body on their acceptance of handicapped students. As the school year progresses, I find the instructors easy to approach with my particular handicap.

Every instructor is willing to make an extra effort on my behalf specifically in the areas of tests and dittoed works. My instructors allow student proctors to read the tests to me. These same professors read any dittoed materials to me or allow a special time extension so that I am able to obtain my own reader.

The campus set-up is more than adequate for my needs. The academic buildings are easily accessible on all

levels. Also, the residence hall in which I live is specifically designed for the handicapped student. Arrangements can be made with the housing director to accommodate specific needs. For example, the handicapped student has priority in room and floor selection.

In addition, I have observed that the students are very understanding and extremely helpful in their acceptance of handicapped students. Several students volunteer to take notes in lecture classes for me.

These factors, in addition to the Special Services Program, make NKU an outstanding institution in regard to the welfare of the handicapped student.

Dawn Biller

## Where is the school spirit?

To the editor:

Why is there no school spirit at NKU? In high school every school I visited as a spectator or a competitor had school and team spirit. At NKU I have a hard time finding people with any school spirit at all. I think people are just here because for one reason or another they can't go somewhere else. I

also wonder why people like to make fun of the school by calling it "the concrete complex" or "the no knowledge college" can you tell me?

I think it would be nice if people would learn to take part in activities, and learn to respect the school.

# Freba Fay on Larry Flynt: a nude beginning

by Freba Fay  
Northerner Contributor

*"If an idea is right in itself, and if thus armed it embarks on the struggle in this world, it is invincible and every persecution will lead to its inner strengthening."*

—Adolph Hitler, *Mein Kampf*

I must in all honesty say that breakfast at the grille is indeed a fine and enviable deal.

True, it is difficult to ruin eggs and sausage. Still and all, A.R.A. manages to provide some moderately tolerable early-morning fare at a reasonable price, so I eat there often. (Come down and see me sometime, big boy.) It was there, after both laying down the putty knife I use to cut up my hash browns into bite-size pieces, and picking up the morning paper, that I first learned of Larry Flynt's bid for the Oval Office.

Imagine, if you will, my sheer delight.

For those of you who may not yet have heard, publisher and purveyor of pornography Larry Flynt has

discovered a "loop-hole", if you will, in the laws regarding legitimate presidential candidates. To be considered legitimate one must be on the ballot in at least ten states (quite easy to do, actually) and have filed all the necessary red tape. I imagine that there are those who, regardless of Mr. Flynt's compliance with these few criteria, will refer to him as *illegitimate*, although I will not be among them. But more on that in a moment.

It seems that no radio or television station may censor or refuse time to so-called "legitimate" presidential candidates. When asked whether or not this meant he was going to show hard-core pornography during his paid-for political advertisements, Mr. Flynt was heard to say "That's exactly what I intend to do."

Now before I offer some suggestions to Larry for possible commercials, I think we should examine his motives.

He claims that the First Amendment guarantees total and absolute freedom of expression, including the right to publish photographs of couples (or more) engaged in the delightful pastime of fornication, copulation, mating, and God

knows what else I could call it if there were indeed absolute freedom of expression (for implicit in that is the freedom to be tacky, tasteless, and absurd).

We have no clue as to what the Supreme Court thinks about all this. If Mr. Justice Douglas were still alive (bless his cantankerous, liberal old soul), we would be more clear on at least the dissenting opinion. He would no doubt have sided with Larry on the issue. Let's, just for the fun of it, suppose that some malevolent diety re-incarnates Justice Douglas back to the court, and he is able to sway his peers with the argument that, having been to heaven and back, God favors un-bridled free speech. Defendant Flynt wins. (Who, besides Jerry Falwell, can argue with God?)

Saturday morning, 10 o'clock. Little Billy turns on He-man and Bugs Bunny. Right after the coo-coo bird tries to foist his sugar-laden air puffs on the impressionable young mind, enter Larry in his wheelchair.

"Hello, young Americans. My name is Larry Flynt, and I am running for president of the United States. Other candidates may tell you they HAVE 'The Right Stuff', but I'm here today to tell you that if I'm elected president, I'll GIVE you the right stuff! (Insert film of Larry's idea of the "right stuff")

7:30 p.m. Flynt sponsors NBC "Newsbreak."

"Hi, I'm Larry Flynt, candidate for president. Let me take a moment to introduce my proposed cabinet. [insert

film of cabinet members] Over there is my Secretary of the Interior, Seka, the one with her socks on. Next to her is Mr. Holmes, (no relation to the famous Justice) Secretary of Vice, oops . . . er . . . Vice-Secretary of the Interior . . ."

Friday night, 9:15 p.m. J.R. Ewing has just swiven his mistress. Anything Mr. Flynt might insert here would probably be, pardon the pun, anticlimactic. This time slot is not recommended.

I'll be waiting with a worm on my tongue (baited breath) for his guest appearance on "Late Night With David Letterman."

"So, Larry, you want to be president."

"Yes, David, I do."

"I suppose you have some reforms that you will attempt to push through Congress."

"As a matter of fact David I do. First, on Washington's birthday, I'll institute what I like to call a "Dionysian revel" policy. All government employees will be free to participate in fertility rituals conducted in government buildings across the nation."

"Do you anticipate any opposition from either the House or the Senate?"

"No, David, I'll attach a rider that legalizes frolicsome activities with congressional pages. I have every confidence that the legislation will pass."

In closing Larry, let me suggest the following slogan: "LARRY FLYNT, A NUDE BEGINNING." Until we meet again, Freba says farewell.

# OBSERVATION

by Dennis Rooney  
Northerner Contributor

I'd like to open this entry of "Observations" with remarks on an article that appeared in last week's *Northerner*. A letter to the editor concerned itself with the upcoming inauguration festivities planned for Dr. Leon Boothe.

In her letter the out-of-state student referred to the inauguration as the "Cinderella Coronation" and lambasted the absurdity and the cost of the scheduled events. Rightfully so. I couldn't agree more with this student's letter. It's maddening to tabulate the cost of some 10,000 formal invitations while across-the-board tuition increases are being proposed. The "gala" event has apparently gotten out of hand and the funding for this fiasco comes out of the student's pocket.

I only have one question. What group of administrative elitist is responsible for this farce? We want names!

With that off my chest, I'll lighten up.

Well, Kentucky was the center of national attention last Tuesday electing Martha Layne Collins governor of the state. This victory makes her the highest elected female member of the democratic party. With this distinction comes national media attention and the possibility that Collins will be considered as a vice-presidential running mate.

That's all well and good. But were you impressed with the governor-elect's brief speech and visit at Northern? I, for one, was underwhelmed. Let's just hope that the former Bagdad schoolteacher remembers her promise of "making the education system in Kentucky second to none." Only time will tell.

Next point.

Congratulations are in order for NKU's cross country team who recently captured the district title. Coach Al Ginn and his runners beat out Berea, Asbury, and Georgetown to earn the right to travel to the nationals, to be held at the University of Wisconsin-

Parkside this Saturday, November 19. Those members of the CC squad are to be commended for their achievements and thanked for raising that sport program out of obscurity. Continued success to Coach Ginn and his plucky squad.

This next observation deals with the various study areas on campus. Students who attend the Highland Heights campus are fortunate to have two libraries at their access. Did you ever notice that the various floors of these halls of study serve different functions? For example the fourth floor of the Steely Library is not a place of intense study. It's difficult to concentrate on this floor due to the communal chatting tables in the center of the room.

For those students who are in need of a quiet place which is conducive to learning, I recommend the second floor of the Chase Law Library. Here, the serious student can study without distracting fraternity chit-chat. One word of caution for those who opt for the law library—don't abuse the serenity of that study area. It's been reported that students who disrupt the area are physically removed by a gentleman resembling John Houseman.

Another favorite, yet unorthodox study area is the student's automobile. On any given morning dozens of people can be found with heads down voraciously reading while waiting for a parking spot. Now that's utilizing one's time efficiently. Or is it called cramming?

This last point is not intended to frighten anyone but it certainly has me concerned. Do you folks realize that we are a mere four weeks away from final exams? I suppose it's time to crank the study output level on high and hope to God we survive this crucial month.

Is it just me or does it seem to you that this semester is speeding by? As latin scholars used to say, "Tempus Fugit." That's Latin for "time flies" and it's the only thing I remember from four years of that dreaded subject in high school. But it is an appropriate adage for the time-constrained student.

On that sobering thought I'll close, but remember, I'm watching for all of us

# SECONDS WITH ANDY

by Andy Backs  
Features Editor

It's a beautiful day in the neighborhood, a wonderful day in the neighborhood, could you be mine? Would you be mine? Hi there kids. This is Mister Andy, happy to be with you on this breezy, bright day at NKU. Can you say freeze your buns? Shyuure ya can!

Today has been a testy day here in the neighborhood, and I could really use a stiff drink. Let's go over to my special refreshment cabinet and we'll learn how to make double martinis. UH-OH it looks like that old alcoholic Mr. McFeely must have been over earlier and drank all my gin. Can you say lush?

Anyway, King Monday from the Happy Heights Highland land of make-believe called me last night and gave me this grand list of things that fit in real nice on a blustery winter day like today.

It's called HOW YOU CAN TELL WHEN IT'S GOING TO BE A ROT-TEN DAY...

You wake up face down on the pavement.

You put your bra on backwards and it fits better.

- You see a "60 Minutes" news team waiting in your office.
- Your birthday cake collapses under the weight of the candles.
- Your son tells you Anita Bryant should mind her own business.
- You want to put on the clothes you wore home from the party, and there aren't any.
- You turn on the news and they're showing emergency routes out of the city.
- Your twin sister forgot your birthday.
- You wake up and discover that your waterbed broke, then remember you don't have a waterbed.
- Your car horn gets stuck as you enter the freeway to follow a group of Hell's Angels.
- You wake up and your braces are locked together.
- Your wife wakes up feeling amorous and you have a headache.
- Your boss tells you not to bother to take off your coat.
- You walk to work and discover that your dress is stuck in your pantyhose.
- You call your answering service and they tell you it's none of your business.
- Your blind date turns out to be your ex-wife.
- You put both contacts in the same eye.
- Your wife says "good morning Bill"... and your name is George.

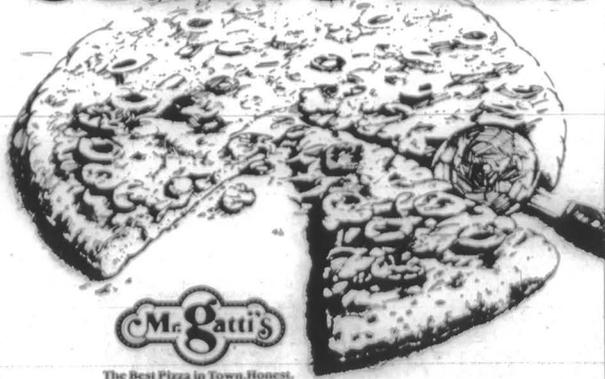

That's all for now boys and girls. See you next week.

# 1983 NKU Basketball Preview

## Defense is the key

by Tom Gamble  
Sports Editor

When NKU head basketball coach Mike Beitzel demands defense from his players, they respond.

The Norsemen must stress defense this year to replace Brady Jackson, an honorable mention All-American forward who led Northern to a best-ever 22-7 finish. He averaged 21.2 points per game and was the leading collegiate scorer in Kentucky.

"We do have to find out how this year's team is going to score," said Beitzel. "We have eight people back and three solid recruits to pick up the slack."

Along with Jackson, the Norsemen lost their starting backcourt of Steve Pollock and Tony Sandfoss and reserve guard Steve Howe. The backcourt duo combined to average 10.2 points per game, but supplied Beitzel with some strong defense.

Northern's new backcourt has the potential to be a scoring machine. Dan Fleming, a 6-1 junior, and Mark Numbers, a 6-3 sophomore, have both started and have shown the ability to score.

As a freshman, Fleming averaged 10.6 points per game, but broke a bone in his foot last year and missed the final ten games. Numbers, who is a prolific outside shooter like Fleming, started eight games as a freshman and averaged 5.0 points a game.

"I think Dan has the ability to be a great scorer," said Beitzel. "He had a tough year last year, but being a junior his experience should be a factor."

Fred Terry, Reggie Nettles, and Jeff Knauf should see plenty of action coming off of the bench. Terry, a 5-11 sophomore, is easily the best ballhandler on the team. At 6-4, Nettles is the tallest guard on the team. Meanwhile, Knauf, a 6-2 freshman, is considered the best defensive player on the team.

One area the Norsemen don't need to replace is the inside game, the "bread and butter" of Beitzel's offense. Northern is blessed with size, strength, and

depth at the forward and center positions.

Steve Jesse, a three-year starter and co-captain, is back to anchor the middle. The 6-6, 220-pound Jesse averaged 8.9 points and 8.4 rebounds per game last year, and has a chance to break the all-time NKU rebounding mark this year.

The forward positions appear to be locked up with 6-7 junior Larry Hock and freshman Willie Schlarman. Hock may be a question mark for the opening game, because of a back injury suffered in practice.

Hock started every game last year and averaged 6.9 points per game, while Schlarman is a newcomer to the Norse lineup. Schlarman, a 6-4 All-Stater last year in Kentucky at Ft. Thomas Highlands, looks to have the position locked up.

Schlarman, who averaged 20.5 points and 11.8 rebounds per game last year, has had little trouble adjusting to the college game. In a scrimmage against Georgetown, Schlarman connected on 9-of-12 from the floor for 20 points.

If Hock misses the first game, Beitzel will call upon 6-8 junior Andy Burns. Burns played in 26 games last season and averaged 3.8 points per game.

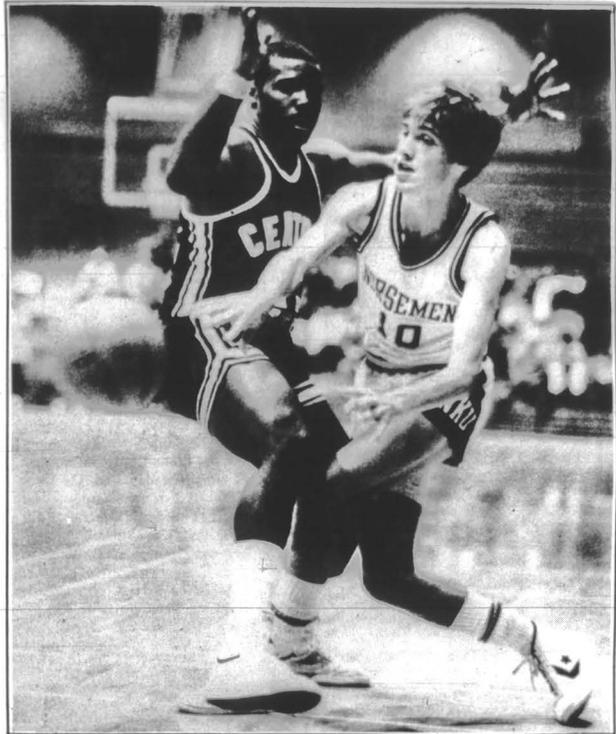

Battling Schlarman for a starting spot will be senior co-captain Keith Johnson. Johnson, who averaged 2.9 points per game last year, has played in 71 games and has scored nearly 300 career points. Freshman Dan Brinkman from Sycamore High School will also give the Norse depth inside.

Beitzel has added a number of walk-ons to the roster, and has plans to gradually introduce them to his system of basketball. The freshman walk-ons are 6-5 Jeff Lohr, a graduate of Newport Central Catholic, and 6-0 Willie Jenkins from Cincinnati Aiken.

The lone experienced walk-on is sophomore Bob Schloemer, a graduate of Cincinnati Oak Hills High School. Schloemer is a transfer from Wittenburg

**cont. on p. 4**

**see mens basketball**

Rob Burns photo

After missing the final ten games last year due to a broken bone in his foot, NKU junior guard Dan Fleming is back to take up some of the scoring lost with the graduation of Brady Jackson.

## Women have full bench this year

by Tom Gamble  
Sports Editor

First-year NKU women's basketball coach Nancy Winstel will have a different view when she looks down the bench this season. There will be plenty of seats occupied.

Last season, the Norsewomen were riddled with injuries and faced the latter part of the schedule with nearly no depth, finishing 13-14, posting only the second losing season in the school's history.

With just six returning players, Winstel wanted to make sure that the Norsewomen would not have a repeat season. She hit the recruiting trail and captured five freshman and has since added five walk-ons, bringing the player total to 15.

The best of the returnees is 5-10 sophomore Pam King, who averaged 17.1 points and 10.2 rebounds last year as a freshman. King, who is recovering from surgery from tendonitis, practiced a full day for the first time this year last Friday.

"The doctors are very confident that she can practice with it now," Winstel said. "As long as she doesn't have any pain, she is able to practice. I'm watching her closely to make sure that she's all right."

If King is able to play the opening game, she will team up with 6-1 junior

forward Nancy Dickman. Dickman, who was redshirted last year, gives the Norsewomen strength inside.

Dickman, who is also recovering from a knee injury, appears to be close to 100 percent. The team captain averaged 14.7 points and 8.5 rebounds her sophomore year.

"Nancy is not yet 100 percent, but she has been able to play," Winstel said. "But, I don't feel that I can ask for any more. Just a lot of luck."

Winstel's main problem appears to be at point guard, a position left vacant when Gloria Montana decided not to return to school. The best hope is junior Clare Lester [12.5 ppg last year], although 5-3 freshman Melissa Wood from Scott High School has excellent ball handling skills.

Also gone are Nancy Williams [14.2] and Deb Elwar [8.1] to graduation. The rest of the Norsewomen appear ready to battle for the other starting positions.

Rita Eggleston from Simon Kenton and Campbell County's Maria Reinert are two of Winstel's recruits that should gain playing experience as the year goes on. Eggleston is a power-forward type player, while Reinert is a shooting guard.

Perhaps Winstel's best recruiting catch is Amy Falk from Bullitt East High School. Falk is 6-9 and appears

**cont. p. 4**

**see womens basketball**

Malcolm Wilson photo

The Norsewomen, under the leadership of first-year coach Nancy Winstel, look to rebound from last year's 13-14 season.

NKU Coach Mike Beitzel hopes to direct the Norsemen to another appearance in the NAA Playoffs.

## Tourney to benefit visually impaired

by Tom Gamble  
Sports Editor

When the Northern Kentucky University men's basketball team takes the floor Friday at 9 p.m. in the Lions Club Tournament, there will be more on the line than simply defending the tournament championship.

The Norsemen have won 17 straight home games, beginning with the opening game of the Lions Club Tournament last year. Northern defeated Hanover 87-60 in the first round, and needed three overtimes to beat Central State 70-59 for the championship.

The last win came against Berea in the National Association of Intercollegiate Athletics district tournament, a 87-81 overtime victory over Berea.

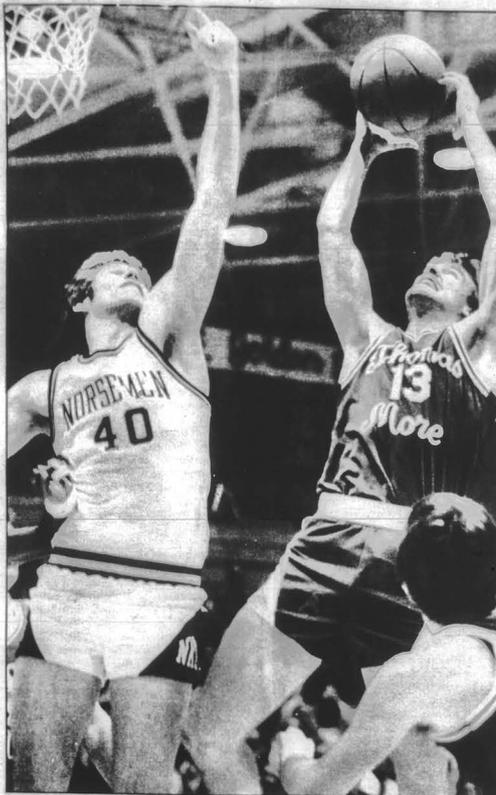

To keep the streak alive, the Norsemen must get by Franklin, a team that is returning Rick Moorhead, the third leading scorer in the NCAA Division II last year. Moorhead, a 6-5 senior forward, averaged 24.3 points per game in leading Franklin to a 18-14 record.

Thomas More will meet Taylor University in Friday's first game, beginning at 7 p.m. Taylor finished 20-10 last year, while Thomas More closed 14-20. Northern defeated Thomas More 74-65 last year at Regents Hall. The championship is set for 9 p.m. Saturday night, with the consolation to be played at 7 p.m.

The NKU Lions Club Tournament is entering its second year as a tournament, though three years ago there was a tournament scheduled. It was cancelled because Thomas More was forced to drop out.

One-half of the proceeds after expenses is donated to the visually impaired students here at Northern in hopes of giving away scholarships. This year, the university presented two scholarships to students, using the money from last year's tournament.

"The tournament is good for the school," Coach Mike Beitzel said. "It gets the community involved along with the school."

NKU junior forward Larry Hock goes up for a rebound against a Thomas More College player last year. The Norse beat the Rebels and may face them for the finals of the Lions Club Tournament Saturday night.

Junior Nancy Dickman

Pam King, recovering from knee surgery

First-year Coach Nancy Winstel must keep her team healthy to be successful.

### 1983-84 MEN'S BASKETBALL SCHEDULE

Date	Opponent	Time
Nov. 18-19	NKU/LIONS CLUB TIP-OFF TOURNAMENT (Franklin College, Taylor Univ., Thomas More College, NKU)	7 & 9 p.m.

\*doubleheader with NKU men's team

Head Coach: Nancy Winstel  
Assistant: Peggy Ludwig

# Three top freshman make recruiting worthwhile

by Tom Gamble  
Sports Editor

When chief recruiter and assistant coach Sam Dixon looked at recruiting Willie Schlarman, one thing was sure. Schlarman wanted to play at Northern.

"Willie really liked our style of play and our coaching staff," said Coach Mike Beitzel. "He felt that he could come in and contribute. Being close to home, he knew all of our strengths and weaknesses."

Schlarman is quick to agree with Beitzel.

"I really liked Northern," said the Highlands High School graduate. "They had a good team, and I like the system that Coach Beitzel has."

Schlarman's interest in coming to NKU was just what the doctor ordered: He was named All-State and averaged 20.5 points and 11.8 rebounds his senior year.

Since joining the Norsemen, Schlarman has made things a little easier for the NKU coaching staff heading into the Lions Club Tournament. In a scrimmage against Georgetown University, Schlarman connected on 9-of-12 shots from the floor and scored 20 points.

"He has made the smoothest adjustment to our type of basketball that I have ever seen," said Beitzel. "He will be a big asset to our team."

While recruiting the Highlands graduate two years ago, Dixon forsook Schlarman in an NKU uniform.

"We followed him his junior year," Dixon said. "We knew that he would make a good small forward, because he can shoot and is physically very strong."

Though the coaches notice Schlarman's quick transition to college ball, Schlarman knows that this year will be a learning experience and that he must do whatever is necessary to help the team.

"This whole year will be a continuous learning process," Schlarman said. "My first objective is to play good defense. If I get an open shot, I'm supposed to take it, just like everybody else."

Though the first few days of practice were a new experience for freshman Jeff Knauf of Scott High School, the past few days his game has fallen into place.

"At first, everybody was so much faster and a lot quicker," Knauf said. "Now, I'm doing a lot better."

Knauf, who was recruited by Dixon as a "shooting guard", understands his role and is not expecting too much his first year.

"Coach wants me to be a shooter, but I have also been getting a look at point guard," Knauf said. "It doesn't matter what I do."

Dixon's final catch is 6-6 Dan Brinkman from Sycamore High School in Cincinnati. Brinkman, who played center in high school, has noticed a great difference in the type of play from high school to college.

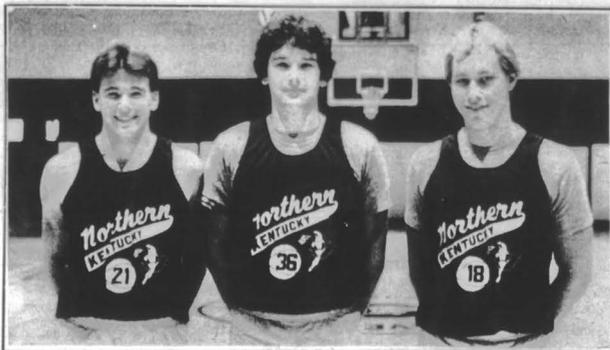

"I don't expect to do much this year, until I get bigger," Brinkman said. "I won't be upset if I don't play."

Brinkman knows that his defense needs much improvement before he will ever see any playing time.

"I let everybody go by me during practice," Brinkman said. "This really gets me down. I need to work on my footwork."

Though Brinkman is having problems adjusting, Dixon sees the same qualities now than he did while Brinkman was at Sycamore.

"Anytime you go against Jesse and Hoek in practice, the adjustment has to be tough," Dixon said. "He didn't face the greatest competition in high school, so this is a drastic change. He has good work habits and is slowly coming along."

University. Both Jenkins and Schloemer are not eligible until the end of the semester.

Although the Norsemen have a nucleus of people returning, Beitzel indicates that the development of this

year's team may take a few games.

"We're in pretty good shape for the first game and our team is ready to play," said Beitzel. "We just need to get some players experience. We should get better as the season progresses."

ready to make the transition to the college level.

"I think Amy will see a lot of action as the year goes along," Winstel said. "But, I think that all five are going to have to contribute."

Transfer Janey Wray from Sinclair College and freshman Lori Tyler from South Dearborn High School in Aurora, Indiana should also see action, as well as 5-10 sophomore Sandy Lee [6.3 ppg] and 5-9 forward Van Hardin [3.0].

Winstel also has three walk-ons to

consider for starting positions. All three are freshman guards from Kentucky. They are: 5-8 Angie Smith, 5-6 Beth Reusch, and 5-4 Laura Burgess.

Perhaps the toughest decision Winstel must make in her first-month as coach is deciding who to start.

"There are ten people that could possibly start," Winstel said. "I'm working toward finding the best combination. I don't have to worry about finding five people to play 40 minutes, because I have a bench."
