THOUGHT FOR THE MONTH

The winner is always a part of the answer; the loser is always a part of the problem.

The winner always has a program; the loser always has an excuse.

The winner says, "Let me do it for you"; the loser says, "That's not my job".

The winner sees an answer for every problem; the loser sees a problem in every answer.

The winner sees a green near every sand trap; a loser sees two or three sand traps near every green.

The winner says, "It may be difficult, but it's possible"; the loser says, "It may be possible, but it's too difficult."
